Lipotype GmbH

If you were part of a team developing the technology to support health and prevent diseases instead of treating them, would you be proud to be part of it? Lipotype is a growing biotech company, and up to this challenge. A few years ago, we developed Lipotype Shotgun Lipidomics, a leading technology that allows for the analysis of thousands of different lipids (fat molecules) at once. Today, we are the leading lipidomics provider and deliver our lipid analysis services for pharma/biotech companies cosmetics/dermatology industry, as well as for academic researchers

Laboratory Technician (f/m/d)

Full-time | Dresden, Germany | Begin: as soon as possible

City: Dresden; Starting date (earliest): At the earliest possible; Remuneration: by agreement

Tasks

What will you do?

- You will be responsible for sample processing for lipid analysis with mass spectrometers as well as data processing and report writing.
- Manual or automated sample preparation.
- Involvement in R&D work.
- Performing laboratory maintenance and associated laboratory routines.

Requirements

Who are we looking for?

- You are a highly organized person, accustomed to routine analytical tasks requiring high reproducibility, precision and cleanliness.
- You are trained as biological or medical technical assistant or possess an equivalent training program in biology, biotechnology or medicine (bachelor, master or diploma).
- Hands-on experience in automated liquid handling and high-throughput processes, as well as a practical knowledge of Quality Management is an asset.

What we offer

Why should you join us?

- Make an impact: Advance lipidomics for a better life.
- Grow with us: Take responsibility and develop in an innovative biotech company.
- Be part of a great team: International, collaborative, down-to-earth and driven by science.

- Enjoy where you work: A new, modern office, designed for collaboration, focus and community.
