

## **Narratic Labs GmbH**

We are building the Sales Intelligence solution for the 21st century. With a mixture of Big Data, custom AI models (that beat ChatGPT by far) and LLMs, we enable B2B lead research for fragmented and under-researched markets like never before. We are a small and ambitious team backed by stellar investors including several founders and operators from global innovators. Our office is located in Berlin-Kreuzberg. We're on the hunt for an ambitious Growth Intern who's eager to challenge boundaries and drive substantial growth. If you leverage tools like ChatGPT to learn faster than others, take

ownership of your projects, and approach tasks with a growth mindset, welcoming feedback to fuel improvement, this role is tailored for you.
