

## Calypso Ventures GmbH - Energy, LNG-Trading, AI

Calypso Commodities is a tech company developing AI-based solutions for LNG scheduling, trading & shipping optimisation, saving millions of USD and GHG emissions. Calypso's X-LNG is globally used by energy majors, utilities, and hedge funds to optimise LNG tanker schedules & portfolios, value optionalities, and make trading decisions. With a growing team of over 30 top-tier mathematicians, software engineers, & LNG specialists we've built the flagship AI scheduling & optimisation solution for the LNG industry - supported by ideas & feedback from a variety of industry majors. Calypso has emerged as the leading and fastest growing AI-company in the LNG industry, comprising the largest tech-team with over 150 years of experience. We have two offices in Germany, Berlin and Regensburg, one in London-Mayfair, and are increasing our Asian market presence with a Singapore office in Q4 2025.

### Internship - LNG Analyst (m/w/d)

City: Berlin; Starting date (earliest): At the earliest possible; Duration: 6 Months;  
Remuneration: 1400€

#### Working field

Data Analysis & Insights:

Perform in-depth analysis of LNG market trends, industry data, and supply chain logistics. Develop actionable insights to support strategic decision-making.

Modeling & Forecasting:

Assist in creating and refining AI models and algorithms designed to predict market trends and optimize trading strategies.

Market Analysis & Strategy:

Analyze market trends and competitors to derive new sales strategies.

Collaboration & Innovation:

Work closely with our AI and trading teams to continuously enhance our analytical capabilities and business operations.

#### Requirements

- You are aiming for a Bachelor's or Master's degree in Engineering, Mathematics, or a related field, and have a solid academic record.
- Strong analytical skills with a passion for data-driven decision-making in the energy sector.
- You are interested in or already have experience in the energy sector, trading or

AI solutions.

- You want to work closely with founders and learn how to scale businesses.
- You are fluent in English (and possibly German), work independently, take responsibility and can effectively manage multiple tasks simultaneously.

## **What we offer**

Extreme learning curve:

In 6+ months you will learn how to do business development in the energy and trading industry, learn how to scale AI start-ups, work with our management on a daily basis and be present at client meetings and industry trade shows.

Sustainable impact:

Your work with us will reduce CO2 emissions and help build the efficient and clean energy future of tomorrow.

Career Prospects:

Possibility of permanent employment or writing a thesis.

Dynamic Work Environment:

Work in a motivated team with flat hierarchies.

Modern office in Berlin-Charlottenburg:

Our office is located close to the TU on Ernst-Reuter-Platz and offers a contemporary working environment.
