

Anton - E-Learning

ANTON is a free digital education platform offering a complete all-in-one curriculum for all subjects for preschool through 8th grade. ANTON is an equitable education company with an office in Kreuzberg, and works to ensure that all kids have access to quality learning resources.

Working Student (f/m/d): Digital Education Content Creator - Math (US English Native Speaker)

Our US Team is currently looking for students who are native US English speakers and would like to create educational content in Math.

City: Berlin; Starting date (earliest): At the earliest possible; Remuneration: Starting at 14€/hour

Working field

- Translating existing content into English
- Creating new educational content, especially for Math within our coding software
- Testing and improvement of current content

Requirements

- Interest in digital education, pedagogy, and alternative learning and teaching concepts
- Native speaker level English skills, especially in writing and grammar
- Good German language skills
- Creative, dependable, detail-oriented, good at independent work, and meticulous work-ethic
- Good IT skills
- Ideally: experience working with children and/or tutoring
- A minimum of 12 months left in degree

What we offer

- A versatile part-time job (starting wage is 14€/hour) and flexible working hours (15-20 hours a week), at the earliest possible date
- Help shape a product that is already helping over 18 million students and teachers to learn more effectively and have more fun while learning
- Work with a young, international team
- Work in a creative working environment in our office in the middle of Kreuzberg (Mehringdamm)

Application

Would you like to get to know us? Write us three sentences explaining why you'd be a good fit for the job. Please attach your CV (as a PDF).
