Working field

Transform the AI Landscape with Gretchen AI!

Are you a business expert, AI market enthusiast or product developer passionate about shaping the future of AI technology? Join us at Gretchen AI, where we're creating a cutting-edge single entry point for AI Agent solutions that redefines how we approach information search and verification.

At Gretchen AI, you'll have the opportunity to dive deep into AI tech options and their potential business perspectives. The focus of your work will be on both deepfake-detection applications as well as AI-Agent based applications on a broad range of markets and verticals. Departing from our award-winning Disinformation Detection solution we're looking for support targeting banking, insurance, telecommunication and beyond sectors.

We're building a diverse team in Berlin that values innovation and collaboration. Leverage your expertise to contribute to groundbreaking products and strategies that will not only enhance our capabilities but also set new industry standards. Together, we can unlock the potential of AI and empower businesses to thrive in a fast-evolving digital landscape.

Your tasks:

- Support in the design of business models for agentic AI / deepfake for media and information verification solutions
- Support in the MVP conception and implementation of individual PoCs, pilots
- Exchange and networking with relevant stakeholders from science, industry, politics and civil society
- Incubation of start-up activities

Join us and be at the forefront of AI innovation!

Requirements

- Bachelors' degree (or equivalent qualification) in economics, entrepreneurship, business informatics or related
- Enthusiasm and expertise in AI-based solutions and developments
- Good English and/or German language skills
- Confident appearance in an international working environment and high self-motivation, teamwork, problem-solving and results-oriented mindset

What we offer

- A wide and interesting range of vibrant activities and network opportunities in a young, agile and international team
- Contribution to cutting-edge deep-tech startup development and growth
- An attractive workplace in the heart of Berlin
- 2-day office attendance in Berlin, other days remote work possible
