

Working Student at Keaz

Introduction

As a working student at Keaz, you'll have the opportunity to learn directly from experienced software engineers and gain hands-on experience. You'll assist in larger projects while also taking ownership of specific tasks and areas.

About Us

We help e-commerce businesses quickly and easily unlock the power of a cutting-edge marketing channel: WhatsApp. With years of experience in chat marketing, we're democratizing this highly promising marketing channel through our SaaS product. Our clients are online shops with annual revenues ranging from 1 to 10 million euros. The value of our work lies not only in boosting customer retention and revenue, but also in automating customer engagement using the latest technologies. Our team currently consists of 3 developers (Cornelius, Nicolas, and Khaled), 1 designer (Diana), and the two founders (Niels and Nils).

Our Values

- Focus on what truly drives our clients' success
- Simplicity, for an intuitive user experience
- Speed, to iterate and progress quickly

About the Job

- Develop, improve, and maintain internal tools that support our operations
- Apply the latest AI models to create new opportunities that fuel our pipelines
- Analyze and interpret data, experimenting quickly to gain insights
- Deliver comprehensive, scalable, high-quality code

- Thrive in a fast-paced environment, rapidly scaling both your skills and our systems
