

## Ghostnote - Music Label

Ghostnote is a fast-growing music startup based in Berlin. Since launching in February 2025, it is our mission to build the biggest label you've never heard of. At Ghostnote, we are creating music brands and ambient experiences designed to help people study, sleep, or just relax with our carefully curated playlists. Ryoto is our first artist focusing on anime and retro gaming inspired playlists, and we have many more in the works. At Ghostnote, we mix startup energy with a love for music, creative design, and building fresh new brands and communities. We are data-driven and

use new tech to shape our ideas, but always trust our instincts and creative vision. If this sounds exciting to you, come join us!
