

## **Studio Olafur Eliasson GmbH**

**Olafur Eliasson** About the Studio Olafur Eliasson: The studio team consists of specialised technicians, architects, artists, art historians, cooks, and administrators. We work with Eliasson to experiment, develop, and install artworks, projects, and exhibitions as well as to communicate and contextualise his work. We're a fast-paced team that understands the importance of slow, in-depth work. We hire highly skilled team-players, and we value creative thinkers and doers with a passion for art. About Studio Other Spaces (SOS): Studio Other Spaces is an international office for art and architecture, co-founded by Olafur Eliasson and Sebastian Behmann in 2014. SOS has its origins in the multidisciplinary projects undertaken at Studio Olafur Eliasson and focuses on interdisciplinary and experimental building projects and works in public space. ### **Visualisation Specialist (d/f/m)**

Start date: As soon as possible Employment: Full-Time Where: Berlin Deadline to apply: Friday, 12.09.2025

City: Berlin; Starting date (earliest): At the earliest possible; Remuneration: Salary; Closing date: 12/09/25

### **Working field**

We are looking for an in-house visualisation specialist to join Studio Olafur Eliasson. In this role, you will work closely with the design teams of both Studio Olafur Eliasson and Studio Other Spaces and be responsible for transforming conceptual ideas in art and architecture into compelling, high-quality images and moving image content for both internal development and external communication.

We are looking for an engaging team player who is committed to create renderings at different design stages, ranging from first sketches to high quality renderings for site-specific commissions, architectural projects and installations.

### **Requirements**

- Strong visual sensibility with a refined eye for composition, lighting, and spatial storytelling
- Ability to create a wide range of visuals and moving image content in the full spectrum of diagrammatic to photo realistic renderings
- Demonstrated exceptional visualisation talent with a high-quality portfolio
- Minimum of two years of professional experience in visualisation
- A degree in architecture or related discipline is desired
- Experience in architecture, art or related field is a plus
- Enthusiastic about visual representation and pushing the boundaries of how ideas are communicated visually
- Comfortable managing multiple deadlines, take initiative and complete tasks efficiently
- Comfortable to work at a high speed with highs and lows in the schedule

- You work exceptionally well on a team
- You possess excellent problem solving, organization and interpersonal skills
- You grasp complex briefs quickly
- This position requires good English skills, German skills are a plus

### **What we offer**

All nationalities are encouraged to apply. Studio Olafur Eliasson is committed to an inclusive employment policy in all areas of the studio, with an explicit focus on increasing the ethnic, socioeconomic, and gender diversity of the studio.

For information about studio building accessibility, please consult the section 'work-space accessibility' here.

Applicants from non-EU/Schengen countries applying for the job position are required to obtain the necessary residency permits and work visas in Germany; we can offer assistance in this process.

### **Application**

We look forward to receiving your online application with a cover letter, CV & portfolio, please indicate within your application your software skills, your earliest possible entry date as well as your salary expectation by Friday, 12.09.2025 to: [jobs@olafureliasson.net](mailto:jobs@olafureliasson.net)
