

## HERE Technologies

As global mobility becomes increasingly connected, electrified and automated, HERE Technologies is leading the way to a safer, greener future. Our location platform is integrated into more than 180 million vehicles across the planet, using fresh and accurate data that we have been building for over 35 years - and continue to refresh daily. Our experience in mapmaking has made HERE one of the leading innovators in location technology and spatial intelligence. In our key markets, Automated and Connected Driving, Fleet Management, and Supply Chain, we work with global brands, partners, developers, and customers so that together we can move the world forward. Armed with critical location data and technology tools, we're developing solutions that solve the biggest challenges that face us today and help us plan for a better future. To discover more about the future of location and spatial intelligence visit [here.com](https://here.com).

## Berlin Geospatial Student Hackathon at HERE Technologies

City: Invalidenstrasse 116, 10115 Berlin; Starting date (earliest): 09/04/26; Closing date: 07/04/26

### Tasks

This April, HERE Technologies, the world's leading location platform, will host a second Berlin geospatial student hackathon. We're inviting curious and driven students with a passion for geospatial technology to take part.

#### The Challenge

Apply your geospatial and AI skills to improve road safety in urban environments. Participants will work on enhancing digital maps by detecting and interpreting safety-critical road features that influence speed behavior, using a combination of geospatial data, imagery and open datasets.

Hosted by HERE Geospatial Community of Practice

#### Location

HERE Technologies Invalidenstraße 116, 10115 Berlin

#### Date

9-10 April 2026

#### Time

Day 1, Thursday: 8:00am - 6:00pm CET

Day 2, Friday: 8:00am - 7:00pm CET

### Requirements

For Students only

## What we offer

### The prize

A six-month paid internship at HERE Technologies in Berlin (working student contract, 20 hours per week, working from the office).

Winners of the Berlin hackathon may also qualify for the HERE Virtual Global Student Hackathon. Learn more in our FAQ.

## Application
