

enervis energy advisors GmbH - Energiewirtschaft und Beratung

enervis is a leading Berlin-based consulting firm specialising in the European energy industry. We support companies in strategic investment decisions and shape the energy policy debate. enervis is expanding its European consulting team and is looking for a working student (availability > 6 months) or intern.

European Energy Markets - Working Student / Intern (m/f/x)

Energy Economics / Economics / Engineering

City: Berlin; Starting date (earliest): At the earliest possible; Remuneration: 16€/h

Tasks

- You analyze European energy markets, including policy, regulatory and economic frameworks, with a strong focus on power markets.
- You keep track of key developments such as RES pipelines and policies, commodity and CO₂ markets, hydrogen, grid expansion and related topics.
- You translate data and analyses into meaningful insights for our European energy market scenarios and present and discuss your results in internal settings.
- You contribute to the further development of our in-house energy market models.

Requirements

- You are pursuing a degree in energy economics, energy economics, or engineering
- You bring a solid understanding of energy economic principles and power markets.
- You have ideally gained initial experience in the energy industry through your studies or internships.
- You communicate fluently in English and ideally bring an additional EU language; German is a plus.
- You are confident in using MS Office tools, particularly Excel and PowerPoint; experience with advanced data analysis (e.g. Python) is an advantage.
- You stand out through strong analytical and conceptual thinking, as well as excellent teamwork and communication skills.

What we offer

- Our various consulting projects offer you the perfect opportunity to start your journey in energy markets and help shape the energy transition in Europe and beyond.
- With enervis, you will quickly understand the relevant energy market issues while specialising and developing your skills.
- You will work in interdisciplinary teams in an open atmosphere with flat hierarchies in one of the most beautiful offices in Berlin.
- As a remote-friendly company, we encourage our employees to determine a fair balance between office and remote work individually.
- Generous holiday arrangements and attractive company fitness programme (Urban Sports Club).
- Catering is also provided: fruit, snacks and drinks are available.

Application

If this sounds exciting to you and you think you'd be a good fit for our team, we look forward to receiving your application.
