City: Berlin; Starting date (earliest): At the earliest possible; Duration: 6 months;

Remuneration: No / On-site in Berlin; Closing date: 31/08/26

Tasks

This is a hands-on execution role for someone with a sharp eye, fast hands, and a deep respect for restraint.

Produce social assets, newsletter layouts, and campaign graphics from existing brand guidelines.

Prepare product and lifestyle imagery for web, social, and print.

Support the build of decks, catalogues, and partner-facing documents.

Adapt and resize assets across formats at speed, without losing precision.

Keep the brand asset library clean and organised.

You are happy executing within an established system, not reinventing it.

Requirements

Mandatory: You must be enrolled in a university/design programme with a mandatory internship (Pflichtpraktikum) requirement for 6 months.

Execution: Precision and speed. You care about kerning, grid, and alignment without being told.

Work Style: Self-organised. You take a brief and run with it.

Nice to have:

Motion or basic video editing skills.

Some experience with print production.
