

FRV - Project Engineering, Project Development

The future happens here

Founded in 2006, FRV is a global operator that is dedicated to being at the forefront of the global energy transition. Our mission is to lead the transformation of the energy market by providing innovative utility-scale renewable energy solutions world-wide. Over the past 15 years, we have continuously pushed the boundaries of conventional energy value chains, pioneering cutting-edge projects in the renewable energy sector, playing a significant role in shaping the landscape of renewables worldwide. As Working Student at FRV, you will contribute significantly to our project development team and get an excellent opportunity to enhance and practice your skills with geoinformation systems, data management and land acquisition. We are a small and agile team, where roles can be developed flexibly following personal interests and specific skillsets. We are seeking a highly motivated person with a background in engineering/ landscape planning who shares our passion and wants to support us in our mission of advancing the energy transition.

Working Student (m/w/d) for Project Development in Renewable Energies

City: Berlin; Starting date (earliest): At the earliest possible; Remuneration: 16€/h

Tasks

As part of the Project Development team, this position will be accountable for the following tasks:

- Researching, screening and contacting contractors and consultants for environmental and engineering studies
- Working with QGIS and optionally AutoCAD to create plans and layouts
- Supporting the documentation and monitoring of project permitting processes (Bauleitplanung)
- ESG-reporting using various reporting platforms and tools
- Other ad-hoc duties.

Requirements

- Currently enrolled in a bachelor's or master's degree program with (environmental) planning context (i.e. Geography, Geosciences, Environmental Sciences, Landscape Planning, Architecture, Engineering...)
- Skills with GIS applications like ArcGIS, QGIS, AutoCAD or others of advantage
- Good communication skills, especially in written form
- Detail-oriented with strong organizational and time management skills
- Very good command of the German and English language, both orally and in writing
- Ability to work independently as well as part of a team in a fast-paced environment
- You are enthusiastic and want to make a contribution to the energy transition

- You are available ideally 20 hours per week. This can be flexibly arranged around exams or deadlines.

SOFT SKILLS:

- Team player
- High motivation level
- Eagerness to learn new skills

What we offer

- varied tasks
- flexible working hours
- a good working atmosphere
