

BENOCs GmbH

BENOCs - a pathbreaking solution for telco operators that implements intelligent content traffic steering and automated load balancing in very large IP networks - thus significantly reducing network capex while improving quality. The rapid evolution of global internet content delivery towards more diverse and fluctuating network arrangements requires smart solutions that encompass this complexity and offer effective means of control. BENOCs offers the technologies to make this happen.

Working Student - Software Development (all genders)

Are you a passionate developer that wants to contribute to the evolution of the Internet?

We are a small team with big ambitions to improve Internet performance by improving how traffic behaves on Internet Provider Networks. If you are a creative problem-solver who wants to work with a world-class team, and enjoys learning new skills regularly, then we are interested in you!

City: Berlin; Starting Date: At the earliest possible; Remuneration: 15 € per hour

Working field

- You actively support us to further develop, optimize and maintain our software
- You support the team in testing, identifying bugs and solving problems
- You work on challenging tasks that match your level of knowledge and evolve with your skills

Requirements

- You are studying computer science, software engineering or a related field
- You have programming skills in backend technologies (e. g. Python, C++, Go) as well as source code management (e. g. Git)
- You have fluent verbal and written English communication skills
- You are a team player, committed, have a quick grasp of things and enjoy complex tasks and visible results

What We Offer

- Flexible working hours that consider your university schedule and study requirements
- Hybrid work set-up
- Starting immediately
- Weekly working hours: 15-20 hours

Application

Please email your CV, a cover letter, and any relevant reports and/or work references you may have to **jobs@benocs.com**.
