

Reonic GmbH

At Reonic, we're on a mission to simplify renewable technology with our B2B SaaS solutions for solar, storage, and heat pumps. Backed by top-tier investors and trusted by 1,000+ business customers, we're growing fast.

Digital Marketing Designer Intern (m/f/d) - Renewable Energies & B2B SaaS

Design for a Sustainable Future ☑

City: Berlin; Starting date (earliest): At the earliest possible; Duration: 6 months;
Remuneration: 2500 Euro / monthly

Working field

Renewable Energy, B2B SaaS, Marketing, Communication Design, Content Creation

Requirements

- Experience with design tools (Adobe Creative Suite, Figma) and video editing software (Premiere Pro, After Effects, or similar)
- A strong portfolio showcasing your graphic design and video editing skills
- Creative mindset with an ability to design content that resonates with our audience
- Interest in marketing beyond design—understanding the bigger picture
- Bonus: Basic knowledge of motion graphics and animation
- Excellent English skills and the ability to work independently & in a team
- Available for a 4-6 month internship in our Berlin office

What we offer

- Be part of a fast-growing VC-backed startup with a mission-driven approach
- Freedom to experiment & bring your ideas to life in a small, creative team
- Real ownership & responsibility from day one
- Perks like gym membership, coffee & drinks, team events, MacBook & more
- Make a tangible impact in the renewable energy sector

Application

Even if you don't meet every requirement, we encourage you to apply! Imposter syndrome shouldn't hold you back—we value talent and passion above all.
