Technische Universität Berlin

Technische Universität Berlin offers an open position:

Student assistant (60 hours per month)

Fakultät IV: Elektrotechnik und Informatik, Institut für Softwaretechnik und Theoretische Informatik, Quality and Usabitly Lab
Reference number: IV-SB-0040-2025 (starting at the earliest possible / limited until 31.12.2026 / closing date for applications 21/05/25)

Working field:

Supporting activities under supervision in the "TrustRAG" project with the following tasks:

1. Supporting activities in the development and implementation of department-specific experimental platforms for user studies (50%) - this is explicitly not a user interface and the software developed here is not intended for transfer to permanent operation
2. Contributing to the design and structuring of experiments and study setups (30%)
3. Support in data annotation and data analysis using various statistical methods/machine learning techniques (20%)

Requirements:

Must:

1. Initial experience in web development, particularly with JavaScript and Python
2. Good knowledge of German and/or English; willingness to learn any missing language skills
3. Basic knowledge of scientific research and user research methodologies
4. Enrollment at a German University

Can:

1. Experience in data analysis and statistical testing
2. Knowledge in the field of Explainable AI or Human-Computer Interaction

Party responsible for specialist area / point of contact for job posting: Charlott Jakob, Irene Hube-Achter
Period of employment: immediately until 31.12.2026
Apply to: bewerbung@qu.tu-berlin.de

Please submit your written application including cover letter, your CV, certificate of enrollment, and where applicable, current transcript of records, with the reference number to the place of employment indicated above.
In the interest of promoting equality opportunities for men and women, applications from women with suitable qualifications are particularly encouraged.
