Subject: Job advertisement - IT support

We are looking for a committed person to actively support our team in the IT area, in particular with:

- Assisting with the installation, configuration and maintenance of the company's IT framework (Windows Server 2012/2008, Windows 10, Office 2010).
- Setting up hardware and software applications as required
- Providing general support to the IT department and company computer users Installing and maintaining various peripherals and installing the relevant updates and patches.
- Handling customer and employee inquiries regarding networks, systems and applications

The time scope is 15-20 hours per week on site.

We remain at your disposal for explanations at any time

Yours sincerely

Riccardo Nadalini
Managing Director
