Smartfrog Services GmbH

We are an international IoT tech company focused on making everyday objects and places more intelligent and connected by enabling our users to access them from anywhere at any time. We want the latest technologies to be affordable and user-friendly so that our everyday lives become more comfortable, efficient, and secure.

Working Student - Quality Assurance (Front-End App Testing) (m/f/d)

We are seeking a Working Student to join our QA team, focusing on testing and ensuring the quality of our front-end applications. Our team is at the center of the full software stack at Smartfrog&Canary, providing you with exposure to a variety of technologies and engineering disciplines.

City: Berlin; Starting date (earliest): At the earliest possible; Remuneration: 12,82€-15€ per hour

Working field

- You will assist our QA Team in building, maintaining, and executing test plans and scenarios for front-end applications.
- You will play a key role in ensuring the quality of releases that affect the experience of hundreds of thousands of Canary customers.
- Your work will closely collaborate with both product and engineering teams to ensure smooth and efficient product development.

Requirements

- You are currently enrolled in a university program (Computer Science, Engineering, or related fields preferred).
- A strong interest in quality assurance and a passion for testing front-end applications (no formal degree required, but relevant coursework or experience is a plus).
- Experience in software testing, with a focus on iOS, Android, and/or Web applications, is a plus.
- Basic experience with front-end testing tools and frameworks (such as Selenium, Cypress, or similar) is a plus.

Bonus points:

- Familiarity with RESTful APIs.
- Experience with defect tracking systems (JIRA).
- Familiarity with front-end automated testing tools like XCUITest, Playwright, or similar.
- Experience with at least 1 complete product cycle, from inception to customer

shipment.

What we offer

- An open, diverse, and truly collaborative team environment, where we celebrate our progress together. We work hard, and we have fun.
- A dynamic office and team environment at an international tech company in the heart of Berlin.
- A hybrid working model that allows for office and remote work, with flexible working hours.
- The exciting chance to help build an international brand and to develop new, exciting products and services that make a real, positive impact on people's lives.
- Flexible, agile, and young company with a flat hierarchy and excellent development prospects.
- Constant focus on your personal & professional development (mentoring opportunities, career development discussions, instructor-led workshops, and webinars).
- Subsidy for language courses, conference participation, and other educational materials.
  27 days of paid vacation, educational leave, and the option of unpaid vacation.
- Free fruits, snacks, and beverages at our office.
- Quarterly team events, holiday and summer gatherings, birthday and anniversary recognition for our employees.
