

E.ON Inhouse Consulting GmbH

E.ON Inhouse Consulting

E.ON Inhouse Consulting (ECON) is the internal consultancy of the E.ON Group. We solve the most complex tasks of the new energy world – making a lasting contribution to shape E.ON into a green, customer-centric and digital energy solution provider. Our international team consists of 100 consultants with extremely diverse academic backgrounds and a broad range of experience.

This is the perfect combination to guarantee excellent, sustainable results and plenty of fun during our projects. E.ON's top management entrust us with managing the most crucial topics to the Group - from initial strategy development to final implementation. We support the Group's business units across all sectors, from renewables to sales and customer solutions. Our teams are currently involved in helping to develop new innovative products, in driving digitalization and in improving customer experience in our international projects. In addition, we have a long track record in business development and process optimization.

STEM Talent Days

Your Start into Consulting

City: schermbeck; Starting date (earliest): 18/03/26; Closing date: 22/02/26

Tasks

Do you want to redefine what's possible?

Join us for an exclusive career event to discover the intersection of energy, strategy, and impact. Prove your problem solving skills in the case study and excell our recruiting day to turn your ambition into a job offer!

What's in it for you?

- On-site interviews: Offering you the opportunity to walk away with a job offer on the last day of the event.
- Personalized feedback & coaching: After completing our consulting training and working through an individual and joint case, you will receive personalized feedback and tailored tips on how to shine in your consulting interviews.
- Build meaningful connections: Network in a relaxed setting with consultants, peers, and leaders.

All expenses related to the event will be reimbursed.

Apply Now!

Application ends on February 22, 2026

Requirements

- You are an enrolled masters student, graduate or young professional in the fields

of natural science, technology, engineering or mathematics (STEM) with outstanding academic performance.

- You have already gained some basic hands-on experience in the international arena – providing you with initial insights into the consulting sector and/or energy industry.
- You want to make a difference through technology and bring an innovative mindset.
- You are interested in and want to learn more about a career in management consulting.
- You are curious about making an impact, feel the power of sustainable energy and get a first-hand insight into one of Europe's largest energy companies.

What we offer

- Possibly secure a job offer on the last day
- Solve an exciting consulting case focused on the potential of flexibility in the energy system
- Boost your skills through our consulting readiness training
- Personalized feedback and coaching from our experienced consultants
- Practical tips for your career and interviews
- Experience our culture throughout the event
- Outstanding team spirit, marked by internationality, diversity, mindfulness and fun
