

Amazon - Amazon Web Services Development Center Germany

We strive to be Earth's most customer-centric company. And with every order prepared and delivered, our customer demand is growing. To meet this demand and keep a world-class service, we're hiring graduates and students to grow our teams in fulfillment centers across Europe.

Software Dev Engineer internship

Embedded Development

City: Berlin; Starting date (earliest): At the earliest possible; Duration: 3-6 months;
Remuneration: paid internship; Reference number: N/A; Closing date: 01/06/26

Tasks

Our Software Development Engineer (SDE) interns use modern technology to solve complex problems while seeing their work's impact first-hand. The challenges SDE interns solve at Amazon are meaningful and influence millions of customers, sellers, and products globally. We seek individuals passionate about creating new products, features, and services while managing ambiguity in an environment where development cycles are measured in weeks, not years.

Requirements

Basic Qualifications:

- Must be 18 years of age or older
- Education Requirements (must meet one):
- Currently enrolled in Bachelor's degree or above in Computer Science, Computer Engineering, Data Science, Information Systems, or related STEM fields [degrees can be updated based on regional variations]
- Expected graduation between October 2026 - September 2029
- Demonstrated experience with at least one general-purpose programming language such as Java, Python, C++, C#, Go, Rust, or TypeScript
- Demonstrated experience one or more of the following:
- Data structures implementation
- Basic algorithm development
- Object-oriented design principles

Preferred Qualifications:

- Previous technical internship(s) or demonstrated project experience
- Experience with one or more of the following:
- AI tools for development productivity
- Cloud platforms (preferably AWS)
- Database systems (SQL and NoSQL)

- Contributing to open-source projects
- Version control systems
- Debugging and troubleshooting complex systems
- Strong problem-solving and analytical skills
- Excellent written and verbal communication skills
- Demonstrated ability to learn and adapt to new technologies quickly
- Basic understanding of software development lifecycle (SDLC)

What we offer

In addition to working on an impactful project, you will have the opportunity to engage with Amazonians for both personal and professional development, expand your network, and participate in activities with other interns throughout your internship. No matter the location of your internship, we give you the tools to own your project and learn in a real-world setting.
