

ITONICS GmbH - Software Development

ITONICS is a leading provider of SaaS innovation solutions, empowering organizations to anticipate and shape their futures. Our Innovation OS combines +15 years of specialist experience in end-to-end innovation management with cutting-edge technologies to streamline how global businesses manage, scale, and execute their growth strategies. With more than 150 experts worldwide, we support innovation leaders such as adidas, Johnson & Johnson, Toyota, Mondelez, Siemens, and KPMG. Our diverse, high-performing teams across inspiring global locations thrive on a culture of collaboration, bold thinking, and continuous growth. We're not just building a platform; we're shaping the future of innovation.

Internship / Working Student (m/f/x) - Frontend Development (Angular / React)

Join the Product team to design and improve the interfaces of the ITONICS platform. You will work in collaboration with designers and developers to create a fluid, accessible, and high-performing experience

City: Berlin, Nuremberg; Starting date (earliest): At the earliest possible; Duration: 6-12 months; Remuneration: 1203 €; Closing date: 31/05/26

Tasks

Develop and maintain modern and responsive interfaces in AngularJS / TypeScript / JavaScript.

Connect the front-end to our REST APIs and GraphQL.

Transform Figma mockups into reusable and consistent components.

Contribute to the migration to ReactJS / NextJS.

Ensure RGAA 4.1 compliance (accessibility) and performance optimization.

Participate in code reviews, testing, and quality control before deployment.

Improve Design / Dev processes for more fluidity and speed.

Requirements

Profile sought (Must have)

Student in an engineering or computer science school.

Solid skills in AngularJS, TypeScript, JavaScript, CSS, and API integration.

Strong interest in design systems and user interfaces.

Team spirit, curiosity, and rigor.

Comfortable in English (daily communication).

Nice to have
ReactJS, TailwindCSS, Webpack.
Figma Dev Mode, Cursor, or similar integration tools.
Sensitivity to performance, UX, and accessibility.

What we offer

ITONICS is the world's first innovation operating system.

Our SaaS platform, powered by artificial intelligence, helps large companies identify emerging technologies, trends, and market opportunities to define their innovation strategies.

With over 120 innovation rockstars distributed across Paris, Berlin, Nuremberg, Cape Town, Kathmandu, and Miami, we support global leaders like Adidas, Johnson & Johnson, Toyota, Siemens, Mondelez, or KPMG.
