

Bending Spoons

We acquire and transform digital businesses. Among others, we own Vimeo, Evernote, komoot, Meetup, Remini, StreamYard, and WeTransfer. Together, our products have served over a billion people around the world, with more than 300 million monthly active users and 10 million paying customers. Post-acquisition, we go all in to unlock a business's full potential—often overhauling the technology, redesigning the user interface, accelerating product development, optimizing marketing and monetization, and reshaping the organization for lasting success. We have offices in Milan and London—and a relentless focus on talent density and workplace excellence. To learn more about what we do or see open roles, visit bendingspoons.com
