

Technische Universität Dresden - Chair of Cognitive and Clinical Neuroscience

Unsere Gruppe untersucht neuronale Mechanismen, die der Verarbeitung von sensorischen Informationen auf dem Gebiet der zwischenmenschlichen Kommunikation, der Legasthenie und des (Sprach-)Lernens zugrunde liegen. Es werden verschiedene neuropsychologische Methoden wie f/dMRT, tDCS, EMG, Eye Tracking und Verhaltensexperimente eingesetzt. Wir suchen derzeit eine motivierte und enthusiastische studentische Hilfskraft, die unsere Forschung unterstützt, insbesondere eine fMRT-Studie zur visuellen Verarbeitung sowie künftige Studien zu Entwicklungsdyslexie und Autismus-Spektrum-Störungen. Die TUD steht für eine Universitätskultur, die geprägt ist von Weltoffenheit, Wertschätzung, Innovationsfreude und Partizipation. Sie begreift Diversität als kulturelle Selbstverständlichkeit und Qualitätskriterium einer Exzellenzuniversität. Entsprechend begrüßen wir alle Bewerberinnen und Bewerber, die sich mit ihrer Leistung und Persönlichkeit bei uns und mit uns für den Erfolg aller engagieren möchten.

Student Assistant (m/f/x) - (8 hrs./week)

At the Faculty of Psychology, Institute of Experimental Psychology and Cognitive Neuroscience, the Chair of Cognitive and Clinical Neuroscience is seeking to employ a student as Student Assistant (m/f/x) - (8 hrs./week) - starting November 1, 2026 and limited until October 31, 2027.
