

Midas - candidates@midas.app

Midas is a platform for composable onchain investment products. We give investors exposure to institutional strategies, run by professional strategy managers, through our performance-linked mTokens. These tokens offer full transparency, instant redemptions, and native composability across DeFi. Founded in 2024 and backed by a \$50M Series A, Midas has powered over \$2B in asset issuance and paid out over \$43M to investors. Now Midas is looking for outstanding talent to scale and execute our vision to make investing work like the internet: open, transparent, composable, and for everyone.

Working Student - Finance Operations

City: Berlin; Starting date (earliest): At the earliest possible; Remuneration: 17€/h

Tasks

As a Working Student at Midas, you will support finance and operations across our global teams and entities. You will play a vital role in helping scale, automate and optimise Midas' internal processes.

Your responsibilities may include:

- Maintain and improve internal administrative processes, workflows, and documentation
- Identify opportunities to improve operational processes and propose practical solutions
- Lead the implementation and rollout of new tools, processes, and operational improvements
- Apply AI tools to automate workflows, improve productivity, and help make our operations more efficient and scalable
- Support the Finance team with a wide range of day-to-day operational tasks including invoice processing, expense management, and accounting-related tasks
- Support HR processes, including employee onboarding and offboarding, organisation of company events, team offsites, travel, and other internal rituals
- Support KYB/KYC onboarding with service providers across multiple Midas entities and jurisdictions
- Support internal knowledge management by maintaining and expanding our business and operations documentation

Requirements

- Currently enrolled at a university in Business Administration, Finance, Economics, Management, or a related field
- Intrinsic curiosity in fintech, crypto and startup scene
- AI-first mindset with hands-on experience using AI tools to improve productivity and automate workflows

- Excellent organizational skills with the ability to manage multiple priorities calmly and efficiently
- High level of discretion, integrity, and professionalism
- Reliable, proactive, detail-oriented, and comfortable taking ownership of tasks
- Fluent in English and German
- Based in Berlin
- Ideally, previous experience in administration, operations, finance, or a similar role through internships, working student positions, or student assistant roles

What we offer

- A unique opportunity to gain hands-on experience in a fast-growing international startup
- Broad exposure to finance, operations, HR, and business administration
- The opportunity to work on meaningful projects with real ownership from day one
- A collaborative, ambitious, and fun international team
- Flexible working hours that fit around your studies
- Hybrid work setup with our office in Berlin
- The chance to learn about scaling business operations and implementing modern AI-powered workflows in highly security-focused work environment
