DIO Optik GmbH - Optical Retail

Y U N At YUN, we believe eyewear is more than an accessory. It is part of everyday life. Every day, our eyes are exposed to sunlight, screens, indoor lighting, and the city around us. We believe eyewear should make life easier and not more complicated. This idea shapes everything we do, from the frames and lenses we design to the experience we create in our stores. We design our frames and lenses together in-house, always thinking about how they perform in real life: how light passes through the lens, where eye strain can build, and what makes a pair of glasses comfortable enough to wear all day. We also believe good eyewear should be simple and accessible. That is why our stores can produce prescription glasses in around 20 minutes, using our own automatic edging technology. Customers can even watch their glasses being made while they wait. But YUN is not only about the products. It is about the people behind them. At our store in the heart of Berlin-Mitte, you will work alongside a young and international team with different cultural backgrounds and perspectives. Our store concept is clearly structured, and many of our daily processes are systemized. This gives us more time to focus on what matters most: professional advice, optical expertise, and making sure our customers leave happy. Of course, sales are an important part of working at YUN. However, we focus less on individual sales pressure and more on honest advice and finding the right solution for each customer. We are looking for people who are curious, open-minded, detail-oriented, and enjoy working with others. People who care about what they do, want to learn, and are excited to create a better experience for every customer who walks through our doors. If you want to be part of an international team that brings together eyewear, design, technology, and people, we would love to meet you.

Augenoptikermeister/in / Optometrist/in (m/w/d)

City: Berlin; Starting date (earliest): At the earliest possible; Remuneration: Open to discussion

Tasks

- Taking on the professional management and technical responsibility for the optical department
- Providing competent and personal advice to our customers
- Selling eyewear and advising customers on the selection of frames and lenses
- Conducting eye tests and other optical tasks according to your qualifications
- Professionally fitting and adjusting glasses
- Ensuring our professional standards and quality
- Providing technical support to our sales team

Requirements

- A Master Optician (Augenoptikermeister/in) or a comparable qualification that allows you to be registered as the professional/technical manager with the Chamber of Crafts (Handwerkskammer)
- Enjoyment of customer service, advice, and sales
- A strong sense of responsibility and a careful way of working
- A customer- and service-oriented approach
- Good German and English skills
- International qualifications and comparable qualifications are also welcome, provided that the relevant recognition or registration with the Chamber of Crafts is possible.

Have you just completed your qualification and have little or no professional experience yet? No problem. If you meet the professional requirements and are motivated to take on responsibility, we would be just as happy to receive your application. We are happy to support you as you take your first steps into your new role.

What we offer

- A young and international team in the heart of Berlin
- Clear and well-structured workflows
- A focus on professional advice rather than strong individual sales pressure
- A responsible position with a focus on optical expertise
- No traditional store management tasks such as staff management or shift planning
- Flexible arrangement of the position depending on your experience and personal situation
- BVG company ticket
- Up to 2 free pairs of glasses per year
- Exclusive discounts for you, your family, and friends
- A secure position in a modern and international company

Application

Interested?

We’d love to hear from you! Simply send us your CV, and let’s get to know each other and talk about how the position could fit your experience, strengths, and what you’re looking for.
